

MULTIPLICATION 1 TO 5 IN TRAINING

How many equations can you finish in 7 minutes?

Name: _____ Date: _____

Class: _____ Score: _____

Directions: You are given 45 questions. Try to solve as many equations as you can in **7 minutes**. Remember, make sure to get all correct answers.
Do your best and all the best!

1) $2 \times 8 = \underline{\quad}$

16) $3 \times 4 = \underline{\quad}$

31) $1 \times 9 = \underline{\quad}$

2) $2 \times 5 = \underline{\quad}$

17) $7 \times 4 = \underline{\quad}$

32) $4 \times 8 = \underline{\quad}$

3) $7 \times 3 = \underline{\quad}$

18) $6 \times 3 = \underline{\quad}$

33) $5 \times 9 = \underline{\quad}$

4) $5 \times 7 = \underline{\quad}$

19) $1 \times 7 = \underline{\quad}$

34) $3 \times 3 = \underline{\quad}$

5) $9 \times 4 = \underline{\quad}$

20) $8 \times 4 = \underline{\quad}$

35) $2 \times 2 = \underline{\quad}$

6) $8 \times 3 = \underline{\quad}$

21) $3 \times 9 = \underline{\quad}$

36) $1 \times 1 = \underline{\quad}$

7) $4 \times 5 = \underline{\quad}$

22) $8 \times 1 = \underline{\quad}$

37) $4 \times 2 = \underline{\quad}$

8) $6 \times 2 = \underline{\quad}$

23) $2 \times 3 = \underline{\quad}$

38) $3 \times 5 = \underline{\quad}$

9) $10 \times 4 = \underline{\quad}$

24) $12 \times 3 = \underline{\quad}$

39) $4 \times 12 = \underline{\quad}$

10) $12 \times 2 = \underline{\quad}$

25) $11 \times 5 = \underline{\quad}$

40) $10 \times 2 = \underline{\quad}$

11) $10 \times 4 = \underline{\quad}$

26) $2 \times 7 = \underline{\quad}$

41) $12 \times 5 = \underline{\quad}$

12) $5 \times 5 = \underline{\quad}$

27) $4 \times 4 = \underline{\quad}$

42) $10 \times 5 = \underline{\quad}$

13) $7 \times 5 = \underline{\quad}$

28) $6 \times 1 = \underline{\quad}$

43) $11 \times 2 = \underline{\quad}$

14) $2 \times 9 = \underline{\quad}$

29) $3 \times 10 = \underline{\quad}$

44) $12 \times 4 = \underline{\quad}$

15) $5 \times 8 = \underline{\quad}$

30) $2 \times 4 = \underline{\quad}$

45) $11 \times 3 = \underline{\quad}$
